In accordance with the duty to disclose under 37 C.F.R. §1.56, attached hereto is Form PTO-1449 listing five references which may be considered material in evaluating the patentability of the claims of the above-identified application. Four of the references were cited in an International Search Report issued in the corresponding PCT application, International Application No. PCT/KR2004/001648. Four of the cited references are in Japanese. As indicated in MPEP §609(I)(A)(3), the submission of an English-language version of a search report satisfies the requirement of submitting a concise explanation of the relevancy of a non-English reference.

Applicants rely on the enclosed copy of the International Search Report as representing a concise statement of relevancy of the three Japanese references cited in the International Search Report. As for JP 2002-34179 A, this reference is being submitted as being directed to a power supply.

Favorable action is earnestly solicited. If there are any questions or if additional information is required, the Examiner is respectfully requested to contact Applicants' attorney at the number listed below.

Respectfully submitted,
